

NEW

THE AUTOLOGOUS BIOSTIMULATING SOLUTION

## LEVEL UP YOU PRACTICE

with the newest 100% Natural Gel enhancer, combining the properties of **EZPRF** and **Albumin**, to offer infinite new possibilities of treatments and jaw-dropping results for your patients!

## WHAT IS EZGEL AND HOW IS IT OBTAINED?

**EZGEL** is an all-natural, autologous regenerative therapy obtained through centrifugation of a whole blood sample to isolate beneficial cells, then subjected to a cooling and heating process. By mixing the albumin of plasma and the growth factors of PRF, this organic gel concentrate **delivers instant volumizing and beautiful skin rejuvenation.**

## WHAT DOES EZGEL ACHIEVE?

- ✓ Instant volumization and increased regenerative and rejuvenating properties with more durable growth factors release.
- ✓ Ground-breaking benefits and flexibility with a consistency allowing for firmer viscosity versus more liquid gels.
- ✓ Cost-effective and innovative solution that perfectly answers patients' needs for more natural treatments.
